FYI

Based on below information, I plan to go on and call Bozarth and inform him of timetable for 1998 funding requests to be submitted to us for consideration and leave it at that for now. If for any reason you think I should proceed otherwise, please let me know.

Cindy

Roger,

I talked again with C. Ellis regarding the Bozarth Grant. In order to meet the timetable for review of 1998 grant proposals at the August 15 SRRC meeting, I feel I need to communicate with him (via telephone) within the next week to inform him that any requests for 1998 funding must be submitted to me by July 25. We can worry about publication (or the lack thereof) during the August SRRC review/funding process IF he does request 1998 funding. Do you think this is an appropriate way to proceed or have any other suggestions at this point? I need to get back to him ASAP because after next week I will be away for approximately two weeks.

Thanks
Cindy Hayes
